Visual Envelopes Crack+ License Keygen (2022)

Visual Envelopes is a small software application that allows you to address and print envelopes. You have the option to create a simple design for official and business letters, but also you can be creative and make special envelopes using different fonts, colors and images. Visual Envelopes will make addressing and printing envelopes an easier task than you think. You have the option to print envelopes on different machines like laser, inkjet, high-speed printer or even postal service/mail delivery service. The unique "toy" is that all the envelopes are organized into different compartments, which are placed on the left side of the window. You can choose to display the envelope's address on top, bottom, left or right side of the window. In the "to" and "from" fields, you can choose the recipient name or you can automatically address the envelope to a specific user. The size of the address labels and the number of lines can be customized. Print envelopes as full-page or multi-page documents, depending on your needs. Addresses, images, stamps, designs, logos, etc. can be added on to an envelope using the different tools available. You can print envelopes in "personalized" format, or in the standard format used by different postal services. You can "print preview" envelopes in the main window, in order to see how it will look like when printed. Visual Envelopes can also handle images, forms, mailing lists, HTML mail, mailing lists, etc. In addition, Visual Envelopes offers a "mail merge" feature, which allows you to create mail merge templates for mailing. There is also a "to-do list" feature, which allows you to have notes for different mailings and your tasks list. You can share your custom designs and templates with other users, via email or CD. You can also export your envelopes to GIF (image) format. You can also create and print "manual" envelopes. Each envelope can be addressed on several lines. Visual Envelopes can also print envelopes with logos and designs. You can also print "personalized" envelopes, or those used by postal services. To create your own envelopes, you have the option of creating full-page envelopes, multi-page envelopes, postcards and more. You can also "import" a template and customize it.
