Portability perks Easily generate hashes and configure extra settings Clear-cut interface and options...Category: Utilities Platforms: Windows 8, Windows 7, Windows Vista A free and small utility program that calculates the hash of a file or text string and display the hash's value in the terminal window. It calculates MD5, SHA-1, SHA-256, SHA-384 and SHA-512 hashes, and it supports extended hash functions such as xxHash, Whirlpool, and Skein. The hash can be output to files or copied to the Clipboard. Built-in file manager can display the hash of any selected file. The program doesn't use much of the system resources.
